| Rated data                                |                              | Ambie                           | Ambient conditions  |  |
|---|------------------------------|---------------------------------|---|--|
| nput                                      |                              | Installation altitude           | 1000 m  |  |
| Number of phases                          | 1 AC                         | Ambient temperature             |   |  |
| Line voltage                              | 200 240 V ±10 %              | Operation                       | -10 40 °C   |  |
| Line frequency                            | 47 63 Hz                     | Storage                         | -40 70 °C   |  |
| Rated current                             | 7.70 A                       | Relative humidity               |   |  |
| utput                                     |                              | Max. operation                  | 95 % condensation not permitted   |  |
| Number of phases                          | 3 AC                         | wax. operation                  | 95 % condensation not permitted   |  |
| Rated power                               | 0.55 kW                      | Closed-loop                     | Closed-loop control techniques  |  |
| Rated current (IN)                        | 3.20 A                       | V/f linear / square-law / paran | neterizable Yes   |  |
| Pulse frequency                           | 8 kHz                        | S                               | itandards   |  |
| Output frequency for V/f control          | 0 650 Hz                     | Compliance with standards       | UL, cUL, CE, C-Tick (RCM)   |  |
| As a result of legal stipulations, a limi | t to 550 Hz is in production | CE marking                      | Low-voltage directive 2006/95/EC  |  |
| General tech. specifications              |                              | Inputs / outputs                |   |  |
| Offset factor cos φ                       | 0.95                         | Digital inputs                  |   |  |
| Communi                                   | cation                       | Number                          | 3   |  |
| Communication                             | RS485                        | Analog inputs                   |   |  |
| Mechanica                                 | al data                      |                                 | 1/4   |  |
| Degree of protection                      | IP20                         | Number                          | 1 (Analog variant, for setpoint (010 can be scaled or used as 4th digital input)) |  |
| Size                                      | FSA                          |                                 | 1//   |  |
| Net weight                                | 0.90 kg                      | Digital outputs                 |   |  |
| Width                                     | 90.0 mm                      | Number                          | 1 (Isolated optocoupler output, NPN ty  |  |
| Height                                    | 150.0 mm                     |                                 |   |  |
| Depth                                     | 131.0 mm                     |                                 |   |  |
